## **Introduction**

Overall, ZipRealty tracked data from 5,400 cities within 31 markets to identify the most searched cities by ZipRealty.com users. Six of the top 10 cities searched are located in the Phoenix area; the cities of Orlando, Las Vegas (Summerlin), Henderson Nev., and Atlanta round out the 10 most-searched on the list.

ZipRealty also tracks hot and cold zip codes in each of our markets through an online tool on the ZipRealty site that we call [Offer Evaluator](#). We track the ratio, in percentage form, of how offers submitted by buyers and accepted by sellers compare to the original list prices of homes. This ratio helps us to identify which zip codes are “hot” – with accepted offers coming in higher than the list price – and “cold” – with offers coming in less than the list price.

While we have sales and list data for all zip codes in markets where we operate, for this report we list and compare data for zip codes where a minimum 30 transactions have occurred in the past quarter. Below are the cities that fell into the hottest and coldest zip codes.

**Hot Zips:** Youngtown, Ariz. (85363); San Pedro, Calif. (90731); New Haven, Conn. (06515); Oakland, Calif. (94606); San Diego, Calif. (92114); Oakland, Calif. (94601); Hermosa Beach, Calif. (90254); Chula Vista, Calif. (91913); Richmond, Calif. (94805); Rialto, Calif. (92376).

**Cold Zips:** Atlanta, Ga. (30305 and 30326); Naples, Fla. (34102); Saint Petersburg, Fla. (33707); Weston, Fla. (33331); Eloy, Ariz. (85231); Boca Raton, Fla. (33431); Wareham, Mass. (02571); Lantana, Fla. (33462); Miami, Fla. (33142); Atlanta, Ga. (30326).

Finally, ZipRealty tracks the average number of days that distressed properties (foreclosures and short sales) took to sell across five major markets in which foreclosures continue to dominate home listings: Fort Myers/Naples, Fla., Las Vegas, Nev., Phoenix, Ariz., Southern Calif., and Sacramento, Calif.

## **Methodology**

Each quarter, ZipRealty pulls real estate data from the Multiple Listing Services offered in 31 of the 36 major U.S. metropolitan areas in which the real estate brokerage operates. These markets are: Atlanta, Austin, Baltimore, Bakersfield/Fresno, Boston, Charlotte, Chicago, Dallas, Denver, Hartford, Houston, Jacksonville, Las Vegas, Long Island, Miami, Minneapolis/St. Paul, Naples, Norfolk, Orange County, Orlando, Philadelphia, Phoenix, Portland, Raleigh-Durham, Richmond, Va., Sacramento, Salt Lake City, San Diego, San Francisco – Bay Area, Seattle, Southern California, Tampa, Tucson, Westchester County, and Washington D.C. The metropolitan areas ZipRealty cites as part of its monthly report are defined by the brokerage, and may differ from standard Designated Market Areas (DMA). The data pulled and cited within this report is for the second quarter of 2009, beginning April 1 and through June 30.

## **Disclaimer**

This “Home Hunter” quarterly report is intended to convey information on the general market conditions where ZipRealty operates, not on ZipRealty's operating results. ZipRealty's operating results may be materially different from the general trends shown in this report. Please do not draw any conclusions about ZipRealty's operating results based on the information contained in this report but, instead, refer to ZipRealty's earnings releases and periodic reports as they are made public.

### **Top 25 Cities Searched**

ZipRealty.com is one of the top-five ranked real estate destinations on the web, according to [Hitwise](#), a third-party measurement firm. The Top 25 list highlights the most popular cities searched by ZipRealty.com users. During the second quarter, Sunshine State and Sunbelt cities again topped the most popularly searched cities/neighborhoods by home seekers. Arizona, Las Vegas and Florida continue to dominate the searches by ZipRealty.com users, with the Phoenix region claiming six of the top 10 searched cities. ZipRealty.com users also show continued interest in the Las Vegas and Southern Florida markets, with eight cities in the greater Las Vegas area and five cities in Southern Florida included in the top 25 most-searched list.

### Hot and Cold Zip Codes

ZipRealty tracks by zip code the ratio, in percentage form, of how offers submitted by buyers and accepted by sellers compare to the original list prices of homes. This ratio helps us to identify which zip codes are hot – with accepted offers coming in higher than the list price – and cold – with offers coming in less than the list price.

The chart shows the 10 hottest zip codes and 10 coldest zip codes that ZipRealty monitors. The “Hot Markets” are concentrated in California with eight of the ten “Hot Markets” located in the Golden State. The “Cold Markets” are primarily located in the Southeast, with eight of the 10 markets in Georgia and Florida, a continuation of the prior quarter’s trend. Following the Top 10 Hot and Cold Zip Codes below is the breakdown of 31 individual markets.
