Introduction

Overall, ZipRealty tracked data from 5,400 cities within 33 markets to identify the most searched cities by ZipRealty.com users. The greater Phoenix area continues to be the most highly searched. Five of the top 10 cities searched are located in the Phoenix area. The Florida cities of Orlando and Kissimmee, the Las Vegas community of Summerlin and suburb Henderson, and Atlanta, Ga., round out the Top 10.

ZipRealty also tracks hot and cold zip codes in each market through the [Offer Evaluator](#) online tool on the ZipRealty site. The tool tracks the ratio, in percentage form, of how offers submitted by buyers and accepted by sellers compares to the original list prices of homes. This ratio helps identify which zip codes are “hot” – with accepted offers coming in higher than the list price – and “cold” – with offers coming in less than the list price.

While ZipRealty collects sales and list data for all zip codes in markets in which the company operates, for this report only zip codes where a minimum 30 transactions have occurred in the past quarter are listed and compared. Below are the cities that fell into the hottest and coldest zip codes.

Hot Zips: Rancho Bernardo, Calif., (92127); Davie, Fla., (33328); Grand Prairie, Tex., (75050); Commerce (Los Angeles), Calif., (90022); Everett, Wash., (98205); Whitestone (Queens), N.Y., (11357); Glendale, Ariz., (85307); Phoenix, Ariz., (85035); Oakland, Calif., (94608); Arleta (Los Angeles), Calif., (91331).

Cold Zips: New Hope, Pa., (18938); Jacksonville, Fla., (32209); Miami Beach, Fla., (33140); Palm Beach, Fla., (33480); North Miami, Fla., (33181); Miami, Fla., (33183); Atlanta, Ga., (30326); North Ft. Myers, Fla., (33903); Stone Mountain, Ga., (30083); Denton, Texas, (76208).

Finally, ZipRealty tracks the average number of days that distressed properties (foreclosures and short sales) took to sell across five major markets in which foreclosures continue to dominate home listings: Fort Myers/Naples, Fla., Las Vegas, Nev., Phoenix, Ariz., Southern Calif., and Sacramento, Calif.

Methodology

Each quarter, ZipRealty pulls real estate data from the Multiple Listing Services (MLS) offered in 33 of the 36 major U.S. metropolitan areas in which the real estate brokerage operates. The markets included in this report are: Atlanta, Austin, Bakersfield/Fresno, Baltimore, Boston, Charlotte, Chicago, Dallas, Denver, Hartford, Houston, Jacksonville, Las Vegas, Miami, Minneapolis/St. Paul, Naples, New York Metro, Norfolk, Orange County, Orlando, Philadelphia, Phoenix, Raleigh-Durham, Richmond, Va., Sacramento, Salt Lake City, San Diego, San Francisco Bay Area, Seattle, Southern California, Tampa, Tucson, and Washington D.C. The metropolitan areas ZipRealty cites as part of its monthly report are defined by the brokerage, and may differ from standard Designated Market Areas (DMA). The data pulled and cited within this report is for the third quarter of 2009, beginning July 1 and through September 30.

Disclaimer

This "Home Hunter" quarterly report is intended to convey information on the general market conditions where ZipRealty operates, not on ZipRealty's operating results. ZipRealty's operating results may be materially different from the general trends shown in this report. Please do not draw any conclusions about ZipRealty's operating results based on the information contained in this report but, instead, refer to ZipRealty's earnings releases and periodic reports as they are made public. Our next earnings call is Tuesday, November 3, 2009, at 5 p.m. Eastern Time.

Top 25 Cities Searched

ZipRealty.com is one of the top-five ranked real estate destinations on the web, according to [Hitwise](#), a third-party measurement firm. The Top 25 list highlights the most popular cities searched by ZipRealty.com users. During the third quarter, cities that have been hit hard with distressed properties topped the most popularly searched cities/neighborhoods by home seekers.

Arizona, Las Vegas and Florida continue to dominate searches by ZipRealty.com users, with Phoenix proper again taking the top spot and the region claiming four more of the top 10 searched cities. ZipRealty.com users also show continued interest in the Las Vegas and Florida markets, with 11 cities or communities in the greater Las Vegas area and four cities in Florida included in the top 25 most-searched list. Atlanta remains the only non distressed-dominated market to claim a spot the Top 10 list.

Hot and Cold Zip Codes

ZipRealty tracks by zip code the ratio, in percentage form, of how offers submitted by buyers and accepted by sellers compare to the original list prices of homes. This ratio helps identify which zip codes are hot – with accepted offers coming in higher than the list price – and cold – with offers coming in less than the list price.

The chart shows the 10 hottest zip codes and 10 coldest zip codes that ZipRealty monitors. The “Hot Market” strong-hold has shifted away from the Golden State, as California had four of the 10 “Hot Markets” this quarter, down from eight in the previous quarter. Glendale and Phoenix, Ariz., entered the list for the first time at numbers seven and eight. Rounding out the “Hot Market” list are: Davie, Fla., Grand Prairie, Tex., and the Whitestone neighborhood of Queens, N. Y. The “Cold Markets” are primarily located in Florida, with six zip codes on the list.
